7.2.1. Describe two best practices successfully implemented by the institution as per NAAC formate provide in the Manual.

The Best Practices which are being followed in the Vikas Group of Institutions are

1. Mentoring System
2. Special Focus on Slow and Advanced learners

Best Practice 1

Title: Mentoring system

Goals and Objectives:

- To guide the students in setting Personal and career goals.
- To encourage the students to participate in extra-curricular activities.
- To help the students to develop leadership qualities.
- To monitor the academic progress of the students
- To address the personality and behavioral problems faced by students
- To monitor overall progress of students during his/her graduation.

The Context: (150 words)

- Besides the adaptation of good teaching learning process for enhancement of the technical skills of students, Institute has designed innovative methods for the overall personality development of the students.
- Being our institute located in a rural area, and most of the students admitted are also from rural background. Institute decided to take extra care for the advancement of them.
- Through Mentoring system, Institute has developed systematic procedure for improving the different aspects of Personality Development, Communication Skill, and guide them to prepare for competitive exams and higher studies.
- The students lagging in any of the regular subjects or facing problems in acquiring specific skills can get support and advice to develop on their own.
- Faculty who serves as mentors make a valuable contribution to the education and training of undergraduate students interested in hands-on experience in different activities. The role of faculty member is crucial to the program's success.

The Practice:

- In this mentoring system each Faculty Member (Mentor) is assigned with a group of approximately 20 students (mentees).
- Mentors interact with the students in alternate week and discuss various issues faced by the students including class work and extracurricular activities.

Prasanna
PRINCIPAL/DIRECTOR
VIKAS GROUP OF INSTITUTIONS
NUNNA
Vijayawada

- Mentors will maintain a career progress sheet/ record for all the mentees and note down all their progress in academic, co-curricular participation and career and inform the same to parents in regular intervals of time.
- The faculty members identify the necessity of extra classes for the students, who are lagging in studies and will be informed to the Head of the Department or the concerned faculty Members to provide extra classes in their lagging subjects.
- The faculty members also identify the need for any sessions on Personality Development Programs or any sort of counselling the students and inform the HOD or the TPO to make such arrangements.

Evidence of success:

- The evidence of success of mentoring system is reflected through the overall personality development of students.
- Those students who had lack of confidence, weak in communication, poor presentation skills, were observed having marginal improvement in the lacked areas when they came to final year.
- Parents were happy to have a system where, attendance had improved a lot. The overall progress of their ward is monitored and informed to them timely right from the first year till the candidate completes his/her engineering.
- Students are able to stand up and give presentations and are gaining confidence.
- The performance of the students is slowly increasing and the students who had backlogs are able to clear them in the succeeding examinations.
- There is a marginal increment in the number of students participating in various events held within and outside the college like paper presentations, poster presentations and the preparation of technical articles have improved since the implementation of mentoring system.

Problems encountered and Resources required:

- Faculty have to spend time in counselling the students.
- Faculty need to identify the requirements of the students and then they should pass on the Head of the Department / Principal to arrange some Personality Development Programs or some sort of counselling sessions to the students.

Best Practice 2

Title: Special Focus on Slow and Advanced learners

Objectives of the practice:

- To give additional support and personalized learning pathways for both slow and fast learners.
- To put efforts to nurture the potential of fast learners, providing advanced learning opportunities that stimulate their intellectual curiosity.
- To ensure that no student is left behind, and each individual can progress at a pace that suits their abilities.
- To monitor the academic progress of slow learners, where they are lagging behind.

Context (150)

- The Institute is located in a rural area, and most of the students admitted are also from rural background. They are poor in language skills for learning subjects and communication skills. So, the Institute decided to take extra care for the advancement of all such students in all aspects of the students.
- Also, many of the students, who are from different backgrounds, viz corporate and non-corporate schooling till plus standard, where a clear difference in teaching and learning methodologies in practicing the basics of Mathematics and other sciences, which is to be addressed and to be bridged the gap.
- To enhance the overall learning experience also to promote self-directed learning and critical thinking skills, a special focus is to be needed.

Practice: (400)

- Taking the performance in the mid examination and previous semester result, the students were segregated into slow and fast learners.

Principal
PRINCIPAL/DIRECTOR
VIKAS GROUP OF INSTITUTIONS
NUNNA - 521 212
Vijayawada Rural, NTR Dist., A.P

- According to the subjects, in which the students are lagging, extra class are scheduled for slow learners, to clarify their doubts and for preparation of the particular topic or subject with extra care.
- The fast learners, who are relatively in advance in terms of results in mid examinations and previous semester results, were advised to learn advanced topics, and also guided them regularly to prepare notes on special topics
- They are also advised to prepare for the competitive exams.
- They are encouraged and guided to prepare for the GATE, GRE, IELTS, GPAT and other competitive examinations to go for higher studies.

Evidence of success:

- 22% students were selected as slow learners and out of which 68% of them got better result in their next appearance in the Examinations.
- 21% students were selected as fast / advanced learners and their performance was improved in their next examinations and also it is observed that their communication and other skills also are improved.

Problems encountered and Resources required: (150)

- Faculty need to take out their time and need to put efforts to guide the Advanced learners.
- Also, faculty need to stay back after the college timings, to take any extra classes for the slow learners.
- Experts should be called from the IIT's, NIT's and arrange some guest lectures for the development of academic interests in the Advanced Learners.
- Experts should be invited from the industry and arrange guest lectures and interactive sessions for the students to understand the present industry trends and also to learn the practical aspects and assimilate their theoretical knowledge with practical's.
- Identify Individual Learning Styles of the students and advise them for their betterment.
- Provide varied instructional methods and materials to slow and advanced learners and accommodate different learning paces and styles within the same classroom.
- Offering one-on-one or small group instruction to provide focused attention and support.

B PHARMACY I YEAR I SEM A.Y 2022-2023 BATCH

LIST OF ADVANCE TOPICS

SNO	TOPIC NAME
1	Factors affecting E 1and E2 Reactions
2	Mechanism of respiratory system
3	Applications of enzymes and enzyme kinetics
4	Relationship between free energy ,enthalpy, and entropy
5	Treatment methods of hematological diseases
6	Structural isomerism in organic compound
7	Mechanisms of hormone action
8	Study of reparation and evaluations of monophonic liquids
9	Anatomy and physiology of heart.
10	Experimentation of conductometric titrations
11	Study of radio activity and its applications
12	Study about diazotization titrations
13	Study and evaluation of suppositories
14	Study of genetics
15	Describe the physiology of urine formation
16	Measurements of tonicity, and its classification
17	Study of flow of powders
