### Object of Program:

- The creation of anti-circumvention laws to protect Digital Rights Management systems. This was achieved through the 1996 World Intellectual Property Organization Copyright Treaty (WIPO Treaty) and the WIPO Performances and Phonograms Treaty. More stringent restrictions on compulsory licenses for patents. More aggressive patent enforcement. This effort has been observed more broadly in proposals for WIPO and European Union rules on intellectual property enforcement. The 2001 EU Copyright Directive was to implement the 1996 WIPO Copyright Treaty. The campaign for the creation of a WIPO Broadcasting Treaty that would give broadcasters (and possibly webcasters) exclusive rights over the copies of works they have distributed.

### Topics Covered:

- TRIPS sets out minimum standards of IP protection to be provided by each Member in:
  - (1) Copyright and related rights including computer programs and databases;
  - (2) Trademarks;
  - (3) Geographical indications;
  - (4) Industrial designs;
  - (5) Patents;
  - (6) Layout designs of integrated circuits; and
  - (7) Undisclosed information, including trade secrets and test data.
- In particular, the main elements of protection are the subject matter eligible for protection, the scope of rights to be conferred, permissible exceptions to those rights, and the minimum duration of protection.

- TRIPS deals with domestic procedures and remedies for the enforcement of IPRs, and Part V deals with dispute prevention and settlement.

## Learning Outcomes

- We understand the immense financial pressure of being hounded by the trolls and bullies who misuse their intellectual property rights. Every company, especially those working in close proximity to large industries or NPEs, are susceptible to intellectual property bullying. Whether out of bad faith or not, these legal disputes are costly for any company.

It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agricultural) and B.Pharmacy along with PG M.Tech (CSE, VLSID, DECS, EPS, SE and TE), M.Pharmacy (Pharmaceutics, Pharm.Analysis and Pharmacy Practice) and MBA. It has strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of students

### Program Outcomes:

We understand the immense financial pressure of being hounded by the trolls and bullies who misuse their intellectual property rights. Every company, especially those working in close proximity to large industries or NPEs, are susceptible to intellectual property bullying. Whether out of bad faith or not, these legal disputes are costly for any company
