CIRCULAR

All the students of B.Tech IV and III year COMPUTER SCIENCE ENGINEERING are informed to attend a One Day seminar on "Research trends in **NATURAL LANGUAGE PROCESSING**" by Asst Prof. **MD.Eliaz**, MIC college of Engineering, is being organized by our R&D cell on 16-03-2022.

So, the students are hereby informed to enroll their names on or before 13.03.2022 and utilise this opportunity.

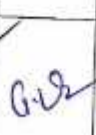

Venue: Room No B205

Timing : 10:00 AM onwards

Coordinator: Mr. B. Suresh., Assoc Prof, CSE Dept.

- Topics covered :**
- Tokenization
 - Part-of-speech tagging
 - Named entity recognition
 - Sentiment analysis
 - Machine translation
- Learning Outcomes :**
- **Comprehension of NLP Foundations:** Students will grasp fundamental theories and techniques in natural language processing, including syntactic and semantic analysis, to comprehend and interpret human language computationally.
 - **Proficiency in NLP Tools and Technologies:** Participants will acquire practical skills in utilizing state-of-the-art NLP tools and technologies, such as deep learning models and pre-trained language representations, to tackle various natural language processing tasks effectively.
 - **Advanced NLP Algorithm Development:** Learners will develop expertise in designing and implementing advanced NLP algorithms for tasks such as sentiment analysis, named entity recognition, machine translation, and text summarization, meeting current research standards.
 - **Evaluation and Benchmarking:** Students will learn methodologies for evaluating NLP systems, including benchmarking against existing models and datasets, enabling them to assess the performance and effectiveness of their NLP solutions accurately.
 - **Understanding of Emerging Trends:** Through exploration of cutting-edge research papers and projects, participants will gain insight into emerging trends in NLP, such as multimodal processing, cross-lingual understanding, and ethical considerations, to stay informed and adapt to evolving industry demands.

About the Institute

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated Institutions aiming to provide excellence in Engineering, Pharmacy and Management Studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Undergraduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, D.S and Agriculture) and B.Pharmacy along with PG M.Tech (CSE, VLSI, DECS, EPS, SE and TE), M.Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of students.

PROGRAM OBJECTIVE:-

The main outcome of this training program to expose the participants to various computing techniques, applied to contemporary problems in the field of Computer Science Engineering.

PROGRAM OUTCOMES:-

1. Knowledge in Machine translation
2. Knowledge on properties of Part-of-speech tagging
3. Knowledge on applications of NLP.

Name of the Programme : Intellectual Property Rights with Trades"
Date : 15/02/2022

Detail of Resource Person Name: Mrs. N. Lakshmi Prasanthi
Qualification: M. Pharm
Designation: Asst. Manager,
Address : Aurobindo Pharma, Hyderabad
Email: prasanthi.nageseti@gmail.com
Contact No: 9052620302

No. of students enrolled 42

Object of Program:

- Trade secrets are intellectual property (IP) rights on confidential information which may be sold or licensed. Contrary to patents, trade secrets are protected without registration, that is, trade secrets require no procedural formalities for their protection. A trade secret can be protected for an unlimited period of time, unless it is discovered or legally acquired by others and disclosed to the public. Trade secrets are secret practices and processes that give a company a competitive advantage over its competitors. Trade secrets may differ across jurisdictions but have three common traits: not being public, offering some economic benefit, and being actively protected.

Topics Covered:

Topics are covered in

- Understanding a Trade Secret
- Trade Secret Treatment
- Buy, Trade, and Hold 350+ Cryptocurrencies
- How to protect trade secrets.
- Agreement on Trade- Related Aspects of Intellectual Property Rights

Learning Outcomes

Students are gained knowledge on trade secrets

Propriety information includes any information developed by a company with economic value. Trade secret refers to intellectual property rights granted to a business for its unique marketing strategies, advertising strategies, manufacturing process, or any information that

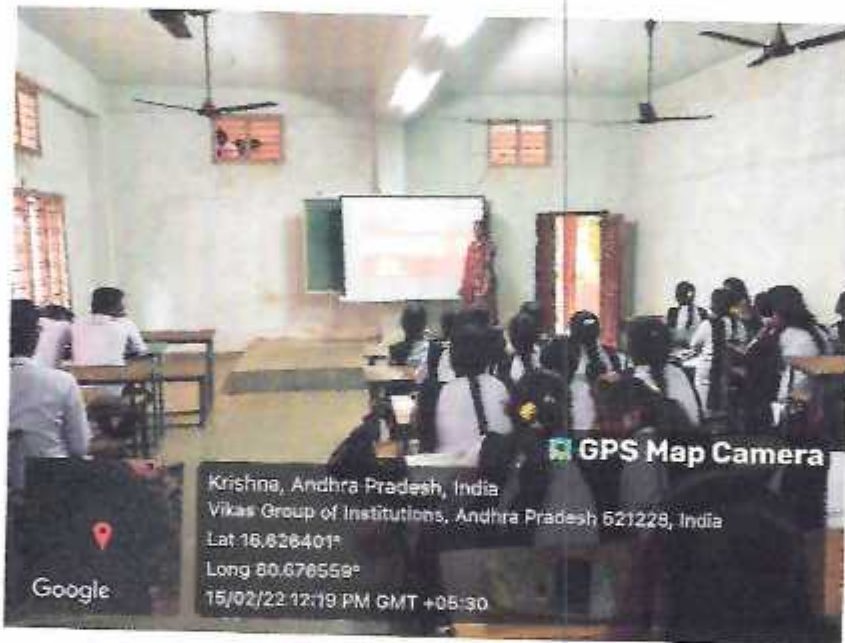

PRINCIPAL/DIRECTOR

Email: principal.9t@gmail.com

provides the company with a competitive edge. Intellectual property(IP) refers to the creation of the mind, like inventions, trade secrets, or artistic work. A patent refers to the legal rights of an inventor for their innovations. One major comparison of trade secret vs. patent is that patents only protect intellectual properties relating to tangible items, unlike trade secret, which protects confidential information with economic value. Patent infringement involves the sale or use of patents without the patent owner's consent.

About the Institutions

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering, Pharmacy and Management studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE,CSE-AIIML, DS , and Agriculture) and B. Pharmacy along with PG M. Tech (CSE, VLSID, DECS, EPS, SE and TE), M. Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

Programme Outcomes

Competitive advantage also means the business can outperform its competition in the market and make a higher profit.

Learning Objectives

- 1.It can contribute to higher profit margins.It may help attract more customers more frequently.
- 2.After the attendance of this course, students are capable - to explain what is meant by strategy and to develop a strategic
- 3.Management framework - to define what constitutes the macro-environment and evaluate the relationship between the macro-environment and the competitive environment
- 4.To explain the role of capabilities and evaluate this role as a means of achieving sustainable competitive advantage - to discuss different perspectives on globalization

About the Institutions

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering, Pharmacy and Management studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE, and Agriculture) and B. Pharmacy along with PG M. Tech (CSE, VLSID, DECS, EPS, SE and TE), M. Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

Programme Outcomes

Business management skills are essential for entrepreneurs to effectively plan, organize, direct, and control the resources of an organization

Learning Objectives

1. These skills can build credibility, improve efficiency, manage risks, implement effective strategies,
2. As they progress, students build skills and competencies in business, finance, marketing, sales, and strategic planning
3. v Business management skills are essential for entrepreneurs to effectively plan, organize, direct, and control the resources of an organization
4. v These skills can build credibility, improve efficiency, manage risks, implement effective strategies, create a positive company culture, and grow a business

PROGRAMME REPORT

Name of the Programme : Use & Misuse of IPR
Date : 09/12/2021

Details of Resource Person

Name: Mr. VNRM Sharma
Qualification: MBA
Designation: Asst. Professor
Address: Vikas College Of Engineering & Technology,
Vijayawada
Email: vnrmsharma22@gmail.com
Contact No: 8985143129

No. of students enrolled : 36
Object of Program:

- To acquaint the participants with basics of intellectual property rights and patent filing
To compare and contrast the different forms of intellectual property protection in terms of their key differences and similarities. To provide an overview of the statutory, procedural, and case law underlining these processes and their interplay with litigation. To encourage young buddies for innovation for 'Make in India' programme.

Topics Covered:

- How to use IPR
- How Do Large Companies Misuse Their Intellectual Property?
- Why Should This Concern My Company?

Learning Outcomes

- We understand the immense financial pressure of being hounded by the trolls and bullies who misuse their intellectual property rights. Every company, especially those working in close proximity to large industries or NPEs, are susceptible to intellectual property bullying. Whether out of bad faith or not, these legal disputes are costly for any company

PROGRAMME REPORT

- Name of the Programme** : A One day seminar on Analytical Research methodology of RP-HPLC
- Date** : 16-11-2021
- Details of Resource Person** : **Mr.G.Narendra,**
Managing Director
Shree Icon Laboratories
Labbipet
Vijayawada
- No. of students enrolled** : 34
- Objective of the Programme** : One of the primary objectives of RP-HPLC research methodology is to separate mixtures of compounds into their individual components and quantify their concentrations. This involves optimizing the chromatographic conditions such as mobile phase composition, column type and dimensions, temperature, and flow rate to achieve efficient and reproducible separations.
- Topics covered** : 1.General Chromatographic Theory Part
2. The Stationary Phase: An Overview of HPLC Media Part
3. The Role of the Mobile Phase in Selectivity Part
4. Column Care and Use

Learning Outcomes

- Understand the theoretical foundations and practical applications of RP-HPLC.
- Develop proficiency in designing and optimizing RP-HPLC methods for analytical research.
- Apply statistical analysis techniques to interpret and validate RP-HPLC data effectively.
- Evaluate the suitability of RP-HPLC for specific analytical challenges and sample matrices.
- Demonstrate practical skills in RP-HPLC instrumentation operation

NUNNA - 521 212
Vijayawada Rural, NTR Dist., A.P.

About the Institute

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated Institutions aiming to provide excellence in Engineering, Pharmacy and Management Studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, D.S and Agriculture) and B.Pharmacy along with PG M.Tech (CSE, VLSID, DECS, EPS, SE and TE), M.Pharmacy (pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of students.

Program Outcomes

The main objective of this training program to expose the participants to techniques, applied to Nanopharmaceuticals and nanomedicines currently on the market

Objectives :-

1. Knowledge in General Chromatographic Theory
2. Knowledge on properties of The Role of the Mobile Phase in Selectivity Part
3. Knowledge on all Column Care and Use

PROGRAMME REPORT

- Name of the Programme** : A One day seminar on **RESEARCH TRENDS IN DIGITAL SIGNAL PROCESSING USING FPGA**
- Date** : 16-11-2021
- Details of Resource Person** : Mr.D.Aravind ,B.Tech, M.S
Assistant Professor
R.K College of Engineering
Email:aravind.gunga@gmail.com
Contact No:8331838251
- No. of students enrolled** : 32
- Objective of the Programme** : Digital Signal Processing (DSP) is one of the fastest-growing techniques in the electronics industry. It is used in a wide range of application fields such as, Telecommunications, Data communications, image enhancement and processing, video processing, Digital TV Broadcasting (HDTV), and Voice synthesis and recognition. Field Programmable Gate Arrays (FPGAs) offer a good solution for addressing the needs of high-performance DSP systems with unprecedented logic, DSP-specific blocks, connectivity, and soft microprocessor capabilities
- Topics covered** : High-Performance FPGA-Based DSP Architectures
Machine Learning and Deep Learning on FPGA for Signal Processing
Heterogeneous FPGA-Based Signal Processing Systems

PROGRAMME REPORT

Name of the Programme : One day seminar on Trademark and circular it's interdisciplinary relation with copy rights
Date : 10-11-2021
Details of Resource Person Name: Mrs.N. Lakshmi Prasanthi
Qualification: M.pharmacy
Designation: Senior quality analyst
Address:Aurobindo Pharmaceuticals, Hyderabad
Email: nagisettilakshmiprasanthi@ Aurobindo.in
Contact No:905262030

No. of students enrolled :42

Object of Programme:

- The scope of trademarks and copyrights is different. Thus, an individual or entity seeking to register an intellectual property must know the differences between a trademark and copyright and obtain the correct registration to protect their intellectual property.
- A trademark and copyright are types of Intellectual Property Rights (IPR) in India. They provide the owners with an exclusive right of use over their products or creations for a limited time. Trademarks are used for goods or services of a company, while copyright is used for original creative work like videography, photography, literary works, etc.

Topics Covered:

- A patent is a property right issued by a government authority allowing the holder exclusive rights to the invention for a certain period of time.
- There are three types of patents: utility patents, plant patents, and design patents.
- A trademark is a word, symbol, design, or phrase that denotes a specific product and differentiates it from similar products.
- Copyrights protect "original works of authorship," such as writings, art, architecture, and music.

Email: principal.9t@gmail.com

Learning Outcomes:

- A trademark protects a brand, name, logo, shape or slogan used to sell products and services.
- A trademark protects a brand, name, logo, shape or slogan used to sell products and services.
- The purpose of using trademarks is to ensure the exclusivity or distinctiveness of the product or service.
- The purpose of using copyrights is to ensure the creator's interest is protected and to give an exclusive right to utilise or distribute their creation.

No. of students enrolled 43

Object of Program:

Main objective of IPR is to create public awareness about the benefits of Intellectual property among all sections of society

Developing IPR expertise in the industry academia and legal fraternity by developing Intellectual property rights circular the policy intense to raise awareness of IP issues.

Patents have a positive effect on society because they promote innovation and help develop new products. They also protect intellectual property. When an inventor obtains a patent, they secure the right to exclude others from using, making and selling their product or method of use for 20 years, while maintaining the right to sell the item exclusively and for a higher price

The patent system promotes innovation. Patents give incentives to drug manufacturers, software companies, high-tech companies. Otherwise, no innovation, no new products or innovative thinking. Once patents expire, methods, products are free to use by anyone else. So, therefore, patent system push innovation and introducing new services and new products.

Topics Covered:

I. Applying for a patent to protect your legal right

After a patent has been issued, the owner has the power to enforce the patent. Most patent owners start by negotiating with the infringer because enforcing a patent is a long, expensive procedure. Often, negotiations end with the infringer agreeing to pay a license fee to the patent owner so that the infringer can continue to use the invention. With the help of an attorney, if negotiations fail, the patent owner will need to make a determination that there is an infringement and file a federal court action to enforce the patent.

Email: principal.9t@gmail.com

II. Federal Law

Federal law governs patent enforcement. Federal district courts have jurisdiction over patent infringement claims and other civil cases arising out of patents. The Federal Circuit reviews appeals from the district courts

Learning Outcomes

The student and faculty learned about recognized the benefits of patent in Intellectual property rights

They gained knowledge on

Intellectual Property law deals with laws to protect and enforce rights of the creators and owners of inventions, writing, music, designs and other works, known as the "intellectual property." There are several areas of intellectual property including copyright, trademarks, patents, and trade secrets

Patent law grants protection for new inventions which can be products, processes or designs and provides a mechanism for protection of the invention. The patent law promotes the sharing of new developments with others to foster innovation. The patent owner has the right to protect others from producing, using, distributing or importing the protected item. Essentially the patent is a property right that can be licensed, sold, mortgaged or

About the Institute

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated Institution aiming to provide excellence in Engineering, Pharmacy and Management Studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agricultural) and B.Pharmacy along with PG M.Tech (CSE, VLSID, DECS, EPS, SE and TE), M.Pharmacy (Pharmaceutics, Pharm.Analysis and Pharmacy Practice) and MBA. It has strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of students

Program Outcomes:

Main objective of IPR is to create public awareness about the benefits of Intellectual property among all sections of society

Developing IPR expertise in the industry academia and legal fraternity by developing Intellectual property rights circular the policy Intense to raise awareness of IP issues

Learning Outcomes

Intellectual Property law deals with laws to protect and enforce rights of the creators and owners of inventions, writing, music, designs and other works, known as the "Intellectual property." There are several areas of intellectual property including copyright, trademarks, patents, and trade secrets

Topics covered

- :
- Data backup using Cloud computing
 - Disaster recovery
 - Email
 - Virtual desktops
 - Software development and testing
 - Big data analytics
 - Customer-facing web applications

Learning Outcomes:

- Understand the principles and architectures of cloud computing.
- Apply cloud computing services such as Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS) in practical scenarios.
- Design scalable and reliable cloud-based solutions for various applications.
- Evaluate security, privacy, and compliance considerations in cloud deployments.
- Implement cloud computing best practices to optimize resource utilization and cost efficiency.
