Objectives of the Programme:

- Understanding the interface and navigation.
- Creating walls, floors, roofs, and other basic building elements.
- Designing custom building components and elements.
- Using parameters to create flexible and intelligent designs.
- Adding dimensions, text, and other annotations to enhance project documentation.
- Generating schedules for material takeoffs and project quantities.
- Creating realistic renderings and visualizations for presentations.
- Managing design variations and project phases.
- Utilizing analytical tools for structural and energy analysis.
- Incorporating external files and models into a Revit project.
- Customizing and extending Revit functionalities through programming.

Topics covered:

- Introduction to Revit
- Basic Modeling
- Family Creation
- Parametric Design
- Annotations and Detailing

About the Institutions

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering, Pharmacy and Management studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE and Agriculture) and B. Pharmacy along with PG M. Tech (CSE, VLSID, DECS, EPS, SE and TE), M. Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

No. of students enrolled :80

Objectives of the Programme:

- This course is designed to introduce programming concepts using Python to students.
- The course aims to develop structured as well as object-oriented programming skills using Python.
- The course also aims to achieve competence amongst its students to develop correct and efficient Python programs to solve problems spanning multiple disciplines.
- Artificial intelligence solves problems
- Artificial intelligence completes multiple tasks
- Artificial intelligence shapes the future of every company
- Artificial intelligence prepares for a boom in big data
- Artificial intelligence creates synergy between humans and AI

Topics covered

- Introduction to Python Programming
- Creating Python Programs
- User Defined Functions
- Built-in data structures
- Develop the problem-solving ability

- Allow continuous learning

Learning Outcomes:

- Write simple programs using built-in data types of Python.
- Implement arrays and user defined functions in Python.
- Solve problems spanning multiple disciplines using suitable programming constructs in Python.
- Solve problems spanning multiple disciplines using the concepts of object oriented programming in Python.
- Study the concepts of Artificial Intelligence.
- Learn the methods of solving problems using Artificial Intelligence.
- Learn the knowledge representation techniques, reasoning techniques and planning
- Introduce the concepts of Expert Systems and machine learning.

About the Institutions

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering, Pharmacy and Management studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE and Agriculture) and B. Pharmacy along with PG M. Tech (CSE, VLSID, DECS, EPS, SE and TE), M. Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

Objectives of the Programme

- Different windows of AutoCAD
- Understand the functions of AutoCAD
- Learn basic commands to use AutoCAD
- Describe the process of preparing for creating the design brief.
- Describe the process of preparing the design brief.
- To impart fundamental knowledge to students in the latest technological topics on Computer Aided Design, Computer Aided Manufacturing and Computer Aided Engineering Analysis and to prepare them for taking up further research in the areas.
- To create congenial environment that promotes learning, growth and imparts ability to work with inter-disciplinary groups in professional, industry and research organizations

Topics covered

- Introduction to AutoCAD
- Different types of Commands
- Process of creating and modifying 2D mechanical engineering drawings using the CAD system
- Process of creating and modifying 3D mechanical engineering models using the CAD system
- Introduction to the role of a Designer Mechanical
- Part Design Basics
- Ansys of Design Part

- To Impart the Knowledge to the students with MATLAB software. [This enhances programming knowledge in Research and Development].
- To provide a working introduction to the Matlab technical computing environment. [Themes of data analysis, visualization, and programming].
- To introduce students the use of a high-level programming language, Matlab. [scientific problem solving with applications and examples from Engineering].

Topics covered

- Basics of Matlab
- MATLAB Compiler The Matlab user interface
- Working with Matlab data types
- Creating matrices and arrays
- Operators and control statements
- Using scripts and functions
- Data import and export
- Using the graphical features

PROGRAMME REPORT

Name Of The Programme : **Workshop on Modern Trends in MAT Lab and WIND –Solar Energy Systems**

Date : **28-07-2018**

Resource Person : **Prof. Vinay Kumar T
M.Tech., Ph.D.,
Assistant Professor
National Institute of Technology,
Warangal - 506004,
Telangana, INDIA
vinaykumar@nitw.ac.in
9885281148**

No. of students enrolled : **20**

Objective of the Programme:

- Understanding the MATLAB environment
- Being able to do simple calculations using MATLAB
- Being able to carry out simple numerical computations and analyses using MATLAB
- To Impart the Knowledge to the students with MATLAB software. [This enhances programming knowledge in Research and Development].
- To provide a working introduction to the Matlab technical computing environment. [Themes of data analysis, visualization, and programming].
- To introduce students the use of a high-level programming language, Matlab. [scientific problem solving with applications and examples from Engineering].

- Discussion of Toolboxes with Applications Signal Processing
- Image Acquisition Toolbox
- Image Processing
- Neural Network
- Fuzzy Logic Toolbox
- Seated Forward Fold

Learning Outcomes:

- Obtain real-world engineering experience by combining MATLAB with lab hardware to solve complex problems
- Learn how working in a single, efficient software environment saves valuable time

About the Institutions

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering, Pharmacy and Management studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE and Agriculture) and B. Pharmacy along with PG M. Tech (CSE, VLSI, DECS, EPS, SE and TE), M. Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

Programme Objective

- Understanding the MATLAB environment
- Being able to do simple calculations using MATLAB
- Being able to carry out simple numerical computations and analyses using MATLAB
- To Impart the Knowledge to the students with MATLAB software. [This enhances programming knowledge in Research and Development].
