PROGRAMME REPORT

Name of the Programme : An Introduction Of IPR With Sound Trade Marks
Date : 17/05/2019

Details of Resource Person

Name: Mrs. Dr.G.Minni
Qualification: MTech Phd,
Designation: Professor
Address: Nimar Collage of Engineering and Technology,
Vijayawada
Email: minni.guntapalli@gmail
Contact No: 9849248003

No. of students enrolled 42

Object of Program:

- Exploration, exploitation and protection of sound markings in India undoubtedly expand the field of branding. Without the exception of sound markings, all trademarks in India are controlled under the **Trademark Act, 1999**.
- The 2017 trademark regulations made certain adjustments to the registration process, but most crucially they make it simpler for businesses to apply for the registration of a strong brand.
- Sound marks are registrable and deserving of complete protection under the Trade Marks Law if they are distinctive and can serve the function of trademarks, which is to exclusively identify and associate the goods and/or services as coming from a specific undertaking also known as a source identifier

Topics Covered:

- Introduction to sound trademarks.
- How many countries are involved in sound trade marks.
- Sound trade marks in India.
- Sound trade marks application filling procedure.

Learning Outcomes

- The sound must be described, for example, by listening to its notes or by the audible counterpart of the sound, including an animal noise.
- The trademark application must clearly declare that it is for the registration of a sound mark in India

About the Institute

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated Institution aiming to provide excellence in Engineering, Pharmacy and Management Studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, DS and Agricultural) and B.Pharmacy along with PG M.Tech (CSE, VLSID, DECS, EPS, SE and TE), M.Pharmacy (Pharmaceutics, Pharm.Analysis and Pharmacy Practice) and MBA. It has strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of students

Program Outcomes:

An international investment treaty is a treaty concluded between economies (usually two, sometimes more) with the object of promoting and protecting foreign investment

Foreign investment can be found in virtually every sector of the economy and foreign investors interact directly and indirectly with officials at all levels of government, and across all government branches

Object of Program: Indian Patent Act provides protection for the intangible possessions of intellect. It gives a boost to the scientific research domains, new technology, and industrial progress.

- The monopoly is facilitated to the innovator for the utilization of the product and also for letting others use the invention subject to their permission for the same.
- The innovator who has acquired the patent possesses absolute rights on deciding whether the product can be commercialized or not. They can prevent the exploitation and commercialization of the product that has been patented.
- The major objective of the Indian Patent Act is to prevent the infringement of the product by others. In case any duplicate product is claimed to be original innovation the patent holder can present their rights.

Topics Covered:

- Intellectual Property law deals with laws to protect and enforce rights of the creators and owners of inventions, writing, music, designs and other works, known as the "intellectual property." There are several areas of intellectual property including copyright, trademarks, patents, and trade secrets.
- Intellectual Property Legislative Process Seminar
- Patent Prosecution and Enforcement Seminar
- Patent Trial Practice.
- Patent Licensing Seminar

Learning Outcomes

At the end of the course the students shall:

About the Institutions

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering, Pharmacy and Management studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE, and Agriculture) and B. Pharmacy along with PG M. Tech (CSE, VLSI, DECS, EPS, SE and TE), M. Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

Programme Outcomes

Over the last decade, the food and beverage industry has been developing at an extraordinary pace, and much of that growth is due to small businesses and new ventures

Learning Objectives

1. Entrepreneurs are entering the industry with huge success, and you could be one of them.
2. Combining wine tasting, healthy food, and how to open a restaurant, this set of courses will give you a comprehensive understanding of the food and beverage industry.
3. The concept of entrepreneurial opportunity is central to entrepreneurship
4. As the entrepreneurial opportunity space illustrates, opportunities within converting & packaging are mainly driven by change

PROGRAMME REPORT

Name of the Programme : Developing Research skills in Application of Gene-Expression Programming (GEP) for the simplifying the complex equation in Water Resources & Irrigation

Date : 08-02-2019

Details of Resource Person : Mrs. Geetha Devi, M.Tech
Associate Professor
SRM University, Delhi,
Email:geetsharmacivilengg@gmail.com
Contact No: 9848382198

No. of students enrolled : 31

Objective of the Programme : The study was carried out to investigate local scours around bridge pier groups for various pier spacing and inclination angles. The objective of the present work was to sow cucumber under drip irrigation and to check the effect of mulched drip irrigation system on yield and WUE under tunnel farming in semi-arid region of Pakistan. The present experiment was planned to develop the optimum irrigation schedules for cucumber based on different deficit levels under tunnel farming.

Topics covered :

- Impact of Bio Slurry on Soil Physical Properties and Crop Yield
- Evaluation of Root Zone Behavior and Cucumber Yield under Different Mulch Materials

Learning Outcomes

- Understand the principles and methodologies of Gene-Expression Programming (GEP) in solving complex equations.
- Analyze the applications of GEP in water resources and irrigation to simplify mathematical models.
- Develop proficiency in implementing GEP algorithms to optimize irrigation strategies and water resource management.
- Evaluate the effectiveness of GEP-generated equations in accurately representing hydrological processes and irrigation dynamics.
- Design and conduct research projects utilizing GEP to address practical challenges in water resources and irrigation engineering.

No. of students enrolled : 37

Objective of the Programme : The objective of data mining technique is, it can perform predictions, classification, clustering, associations, and grouping of data with perfection.

Topics covered : Data mining applications in different fields
Education sector
Intrusion Deduction
Scientific Analysis
Finance and Banking sector

Learning Outcomes:

- Understand the fundamentals of data mining techniques and algorithms.
- Apply data mining methods to extract meaningful patterns and insights from large datasets.
- Evaluate the suitability of different data mining algorithms for specific applications.
- Develop predictive models and decision support systems using data mining approaches.
- Utilize data mining tools and software to solve real-world problems in various domains such as finance, healthcare, and marketing.

PROGRAMME REPORT

Name of the Programme

: One day seminar on Indian scenario of IPR

Date

: 19-11-2018

Details of Resource Person

Name: Mr. Ch. Bhaskara Teja

Qualification: MTech

Designation: Asst. Professor

Address: Visit Engineering College, Vijayawada

Email: chteja88@gmail.com

Contact No: 9493601800

No. of students enrolled

33

Object of Programme:

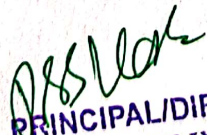

- The course is designed to provide comprehensive knowledge to the students regarding Indian position of the patent law (1970).
- to encourage the creativity of the human mind for the benefit of all and to ensure that the benefits arising from exploiting a creation benefit the creator.

Topics Covered:

- In India IPR shows how to help in student life.
- In this seminar covered topics IPR awareness, generation of IPR and Administration and Management.

Learning Outcomes

- Today, India is on its way to adopting a balanced approach towards creating a stimulus for the betterment of the IPR industry as a whole.
- Recent developments in India, be it the New IPR policy or providing an effective toolkit in the form of checklist that will act as a reference for the police to deal with IP crimes or encouragement to innovators in terms of speedy patent examination in case they file first in India, all are a part of much needed attempt to improve the overall security of IPR and encouragement to create more IP in the country.

About the Institute

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated Institution aiming to provide excellence in Engineering, Pharmacy and Management Studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIIML, DS and Agricultural) and B.Pharmacy along with PG M.Tech (CSE, VLSID, DECS, EPS, SE and TE), M.Pharmacy (Pharmaceutics, Pharm.Analysis and Pharmacy Practice) and MBA. It has strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the

Program Outcomes:

Today, India is on its way to adopting a balanced approach towards creating a stimulus for the betterment of the IPR Industry as a whole

Program Objectives:

The course is designed to provide comprehensive knowledge to the students regarding Indian position of the patent law (1970).

To encourage the creativity of the human mind for the benefit of all and to ensure that the benefits arising from exploiting a creation benefit the creator

Objective of the Programme : Challenges and opportunities Nanopharmaceuticals and Nanomedicines currently on the market.

Topics covered :

- Drug Delivery,
- Nano Crystal,
- Nano Drug,
- Nano Liposome,
- Nano Medicine,
- Nano Pharmaceuticals,
- Nano Polymers,
- Nano Technology.

Learning Outcomes:

- Evaluate various research methodologies applicable to nano formularies and product development in nanotechnology.
- Analyze the principles of nanoscale drug delivery systems and their applications in pharmaceutical product development.
- Design experiments and protocols for the synthesis, characterization, and testing of nano-formulated pharmaceuticals.
- Apply statistical tools and data analysis techniques to interpret experimental results and optimize nano formulary formulations.
- Develop strategies for overcoming challenges in scaling up nano-formulated products from laboratory to commercial production.

About the Institute

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated Institutions aiming to provide excellence in Engineering, Pharmacy and Management Studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE-AIML, D.S and Agriculture) and B.Pharmacy along with PG M.Tech (CSE, VLSI, DECS, EPS, SE and TE), M.Pharmacy (pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of students.

Program Outcomes

The main objective of this training program to expose the participants to techniques, applied to Nanopharmaceuticals and nanomedicines currently on the market. Objectives :-

1. Knowledge in nanocrystal, nanodrug
2. Knowledge on properties of nanoliposome, nano medicine
3. Knowledge on all nanopharmaceuticals

Learning Outcomes

- Explore the latest advancements in Google Cloud Messaging (GCM) technology.
- Evaluate the scalability and reliability of GCM for large-scale message delivery applications.
- Implement efficient message routing and delivery strategies using GCM APIs and features.
- Analyze the integration of GCM with other Google Cloud services and third-party platforms.
- Design and develop innovative applications leveraging GCM to enhance real-time communication and user engagement.

PROGRAMME REPORT

Name of the Programme : One Day Seminar on IPR with Copy Rights in
Computer Programme
Date : 18/09/2018
Details of Resource Person Name: Mr. B Vijay Kumar
Qualification: M.Phil
Designation: Associate Profesor
Address: Nimra college of Engineering and Technology
Email: Bonthuvijaya.kimar@gmail.com
Contact No: 9705201701

No. of students enrolled :33

Object of Program:

- Intellectual property rights are at the foundation of the software industry. The term refers to a range of intangible rights of ownership in an asset such as a software program. Each intellectual property "right" is itself an asset, a slice of the overall ownership pie. The law provides different methods for protecting these rights of ownership based on their type.
- Software intellectual property, also known as software IP, is a computer code or program that is protected by law against copying, theft, or other use that is not permitted by the owner. Software IP belongs to the company that either created or purchased the rights to that code or software

Topics Covered:

- IPR in software
- sample cases
- software project
- pc software project
- smart phone application

Learning Outcomes

- This section has dealt only with what is copyright and the issues involved. It provides only an overview of a vast subject area which involves many legal issues and which are out of the purview of this module.
- The rights of authors of literary and artistic works (such as books and other writings, musical compositions, paintings, sculpture, computer programs and films) are protected by copyright, for a minimum period of 50 years after the death of the author.

PRINCIPAL/DIRECTOR

Email: principal.9t@gmail.com

- Software copyright could cover the specific code used in the program or elements in the user interface. Copyright is automatically obtained by the creation of the original work — unlike with patents, there's no need to go through an application process.

About the Institutions

Vikas Group of Institutions established in the year 2010 one of the best known self-financing Integrated educational Institutions aiming to provide excellence in Engineering, Pharmacy and Management studies. It is governed by Mother Theresa Educational Society to encourage aspiring students with very good Academic record. It offers Under graduate Engineering (Civil, EEE, Mechanical, ECE, CSE, and Agriculture) and B. Pharmacy along with PG M. Tech (CSE, VLSID, DECS, EPS, SE and TE), M. Pharmacy (Pharmaceutics, Pharm. Analysis and Pharmacy Practice) and MBA. It has a strong Industry-Institute partnership, Entrepreneurship cell and R&D cell to enhance the practical knowledge of the students.

Programme Outcomes

Advances in Robotics and Automation deals with manufacture and applications of robots and computer systems for their control

Learning Objectives

1. Sensory feedback, and information technology to reduce the need for human work
2. The main goal of automation is to improve efficiency, accuracy, and speed in business processes
3. Understand basic components of robotics, classification of robots and their applications
4. Design a robot mechanism to meet kinematics requirements and to write simple program
